The Monterey Vineyard®

1980
GEWÜRZTRAMINER

Gewürztraminer (spicy traminer) is the classic varietal wine grape of Alsace, where it produces unusually spicy and flavorful table wines. In Upper Monterey County, the same grape produces intensely spicy wines, primarily because of the exceptionally cool growing season of Monterey. The flowery aroma of this wine makes it a perfect match for rich and highly seasoned food—as well as for fresh fruit and cheese.

The wines of The Monterey Vineyard are characterized by a unique freshness and fruitiness, and a varietal intensity found only in grapes grown in cooler climates. Their emphatic natural character is captured by the vines reaching deep into the crumbled granite slopes of Upper Monterey County. Warm sunshine and cool breezes from Monterey Bay do the rest.
